King, queen, crown, treasures, castle, mystery... The royal crown has gone missing. The ruler has sent out search parties but to no avail. Fortunately, two little kitchen hands get embroiled in the case and start an investigation with the king's consent. Who would steal the crown, and why? To look pretty at a fancy dress party? To get rich? To take power? How about making a planting container for water cress out of a crown? Almost everyone is a suspect.

- a detective story for preschool and early school children
- castle, king, crown are favourite themes in children's stories
- child heroes who are easy to identify with
- slices of knowledge ingeniously slipped in: about investigations, gravity and whether or not you need to kiss a frog to solve a mystery
- beautiful, cut-out illustrations by Jolanta Richter-Magnuszewska
